

EVERYONE CAN PLAY DESIGN CONSIDERATIONS

1. A standout even from the highway, the iconic Belltower Skytower forms the centrepiece of this amazing play space boasting multiple levels of play and views across the surrounding area
2. The Astrea multiplay unit features design ideology based on the natural Butterfly, this unit has a focus on organic shapes linking harmoniously with the natural theme and inspiring children to interact playfully
3. The Double Skyrider is the ultimate in dynamic play! The fully engineered design features architectural and organically rounded gussets and braced terminals
4. The three bay combination swing with all abilities nest seat co-located with toddler seats and strap seats. The existing shelter is to be reused to shade this area whilst allowing for maximum play value to be achieved
5. The Sprooce Moose Rocker features timber detailing for a modern and fresh design with the nearby timber balance trails and sandstone features perfectly complimenting the natural tones of this area
6. The Starfish Spinner allows children to develop strength and coordination skills
7. The Dreamtime Storytelling Circle points out the rich aboriginal heritage of the Narromine region while the Garden Chimes add an interactive sensory element
8. The double Turbo Slide on the mound becomes a landscape feature drawing on the Aboriginal theme through natural features and artwork
9. The path system throughout the playground provides easy access to all areas
10. Ample turfed area for informal play, ball games and picnicking
11. Artwork on the concrete and rubber tie in with the Aboriginal theme of this design. **Artwork to be approved by community prior to commissioning.**
12. Organic lines and shapes within the playground connect the different areas and continue the theme throughout the design
13. Landscape elements encourage children to explore imaginative and social play possibilities beyond the opportunities provided by play equipment, while trees allow for additional shade throughout the area
14. Japanese Stairs built into the Slide Mound adding unique topographical play elements

DOUBLE SKYRIDER, 25M – WITH PLATFORMS

With a stainless steel carriage, hefty steel posts and fully engineered design features the Double SkyRider will delight children and parents for years to come.

THE BELLTOWER SKYTOWER

The most musical tower in the entire playground! Occupying a small footprint, the Belltower boasts a smorgasbord of activities, such as large bell chimes, musical chimes panel, two slides, viewing panels, a climber and a hammock. Generous internal access makes this tower adult-friendly.

SPROOCE MOOSE ROCKER

Drawing inspiration from the humble Moose, this rocker features beautiful wood detailing for a modern and fresh design, perfect to compliment any play area.

DOUBLE TURBO MOUND SLIDE

Moduplay mound slides are ideal for building into landscape features such as retaining walls or mounds. The roto-moulded plastic Double Turbo Slide is a tough, chip and crack resistant, all-weather solution for a slide.

MUSICAL GARDEN CHIMES

Inclusively designed with all in mind, the Musical Garden Chimes are an introduction to musical sound in the outdoor environment; and are a great addition to any playspace, allowing several kids to interact and play at once.

EXCAVATOR

Playing creatively with natural elements is made possible for all children with these beautifully made sand and water play areas.

CAPITAL TRIPLE BAY NEST SWING

The most popular 'A' frame swing design with the unique Moduplay fully welded top beam for unbeatable strength and durability.

'LEARN TO RIDE' SIGNAGE

The real-life markings on the Town Signs, help children to understand and follow basic road rules.

STARFISH SPINNER

Children develop strength and coordination skills as they have a lot of fun on the Spinpoint product range. Built to last with heavy-duty bearings and mounting plates and rubberised grip floor surface that cannot be peeled off.

ASTREA – 30 SERIES PLAY UNIT

The 30 Series offers a unique Euro-Australian Design flavour from our internationally trained designers. Featuring design ideology based on the natural Butterfly and traditional Cubby, this range has a focus on organic shapes with a modern look and feel, inspiring children to interact playfully.

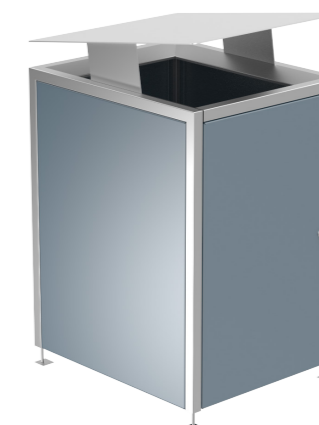

HUNTLEY TABLE SETTING

Modern Australian designed & manufactured table setting made from aluminium frames and planks with stainless steel fasteners, making this a durable and aesthetic choice for your contemporary outdoor space.

HUNTLEY SEAT

Modern Australian designed & manufactured seat made from aluminium frames and planks with stainless steel fasteners, making this a durable and aesthetic choice for your contemporary outdoor space.

BRISBANE BIN

A contemporary style of bin created for inner city and suburban streetscapes. No dirty bin lids to lift in order to dispose of rubbish – the lockable cabinet secures and protects the wheelie bin and the aluminium hood shelters the bin from rain.

TATHRA SHELTER

The Tathra Shelter makes a statement in any setting; a result of unique design and well balanced proportions.
