WHAT IS A COMMUNITY STRATEGIC PLAN?

This Plan shares the community vision and aspirations for the future of the Narromine Shire. It provides a long term framework on how all stakeholders will work towards a brighter future for the Shire of Narromine community.

The Community Strategic Plan will guide and influence how all stakeholders can deliver the community's vision including how Council uses its resources to deliver services across the Shire.

HOW WILL THE PLAN BE USED?

The Plan is the highest level strategic planning undertaken by Council, with a ten-year time frame. It is the primary driver for all planning undertaken by the Council and other stakeholders. Narromine Shire Council intends to use the Community Strategic Plan in several ways, including:

- Guide Council in priority setting and provide the foundation for informed strategic decision making, taking into account the disability inclusion principles;
- Be a key tool for the ongoing integration of local planning initiatives;
- Help guide and inform the decision making of other agencies and organisations, including community, State and Federal Governments;
- Provide the rationale to attract external grant funding and other resources;
- Inform potential investors, including new residents and developers, of our community's key priorities, and the ways in which we want the Narromine Shire to grow and develop;

- Engage our local businesses, community groups and residents in various ways to contribute to the Shire's future; and
- Provide a framework for monitoring progress against our vision, values and key strategic directions.

Why Are We Doing It?

The Local Government Act 1993 requires Councils to facilitate the development of a Community Strategic Plan. In developing the Narromine Shire Community Strategic Plan 2035, each of our Shire's communities has contributed to defining a unified regional vision, while maintaining the unique identity of individual townships so treasured by our residents and visitors alike.

An aerial photograph showing a wide river flowing under a long concrete bridge. The riverbanks are lined with dense green trees. In the background, there are rolling hills, some buildings, and a clear blue sky. A green rectangular box is overlaid on the right side of the image, containing white text.

The Community Strategic Plan provides a unified direction for all stakeholders to move forward and ensures the lifestyle needs of our residents, businesses and visitors and future aspirations as a community, are met.

Our Plan provides the foundations for a sustainable future for our communities; fosters community engagement and participation; encourages strong community and Council ownership; and enables Council to take advantage of future Federal and State Government funding initiatives.

COUNCIL'S ROLE

COUNCIL'S ROLE IN GUIDING THE NARROMINE SHIRE COMMUNITY STRATEGIC PLAN

Council is committed to ensuring that the Community Strategic Plan is a useful visionary document for the community, partners and the Council. The guiding principles and strategic objectives have been developed through community consultation and review of regional, state and federal plans and documents to form the Narromine Shire Community Strategic Plan 2035. The Plan is essentially a collection of goals and actions for the next ten years that will contribute to the achievement of our community's vision.

Importantly, we recognise that Plans are only effective if there are adequate resources dedicated to ensure they can be delivered. Therefore, Council will also develop a resourcing strategy, a suite of documents that will facilitate direct actions to achieve these goals, including Workforce Management Strategy, Asset Management Plans and Long - Term Financial Plan for this period. The Implementation Plan identifies overarching outcomes and actions which are prioritised into short, medium, long term and ongoing. These will be further developed through Council's four-year Delivery Program.

It is important to recognise that things change, the Plan allows enough flexibility to respond to challenges and new opportunities as they arise. This is a Plan formed and founded through our residents, businesses, groups and organisations and Council will monitor and track its outcomes. The Council will report back to the community on outcomes of the Plan on a regular basis including through the success of key actions and inclusion in the Annual Report.

Our Council will

- Report against the outcomes of the Community Strategic Plan every 4 years in the State of the Shire Report
- Review the Delivery Program and Operational Plan every year, with a major review every 4 years
- Undertake the actions outlined in the four year Delivery Program to support the community's vision

HOW WAS THE PLAN DEVELOPED

Our plan has been developed with input from the community, residents and businesses in our Shire. We recognise the importance of gathering a range of ideas and thoughts about what we love and want to retain as well as our challenges for the future.

The Community Strategic Plan is not just about our Council's role and contribution in the present and future; more importantly it is about what directions and strategies Council should undertake to meet the community's aspirations.

Stakeholders across the region were involved in the formation of the Plan with meetings, consultations and surveys as part of the engagement process. The community feedback received during the engagement period was collated, analysed and utilised. The major issues and opportunities identified by the community through the consultation, have been incorporated into the vision, key outcomes and actions in this Plan.

The issues of most importance to the community, as revealed through the feedback from our consultation include:

- Adequate policing levels and reduction in crime;
- Availability of suitable residential land and housing;
- Ongoing maintenance and levels of service for the Shire's local road network, and other essential services such as water, sewerage and waste;
- Employment opportunities and business development;
- Maintaining and improving parks;
- Improving sport and recreational facilities;
- Maintaining an accessible roads system;
- Provision of a range of health and aged care services (including aged care residences);
- Inclusion and access for all residents;
- Engagement of youth and community wellbeing;
- Promote tourism opportunities and support community events; and
- Community expectations of local government to lead, coordinate and partner.

VOICES FROM OUR COMMUNITY

“Great place to live. Need to balance growth with those community focused values.”

“Roads – essential to support the farms in the shire and the farms are the most valuable industry in town.”

“Thank you for the improvements to the wetlands, parks and Cale Oval.”

“Support for our businesses new and old to stay open. Promote Narromine for people to come and live in town to increase the population.”

“Tourism opportunities – Growing Dolly Parton Festival.”

“More community events, more cultural events.”

“The gardens are always beautifully kept.”

“Vibrant town that retains strong sense of self (not suburb of Dubbo) and country living but has opportunities for families, youth to live their best lives. Flourishing businesses. More connection between Narromine, Trangie and Tomingley.”

“Ask our youth what they would like to see in our shire.”

“Allow commercial and industrial growth to attract new people.”

“Encourage more events to come to Narromine.”

“Encourage family friendly eating and entertainment businesses.”

“Three challenges that Narromine Shire faces are: climate impacts, public transport (buses, taxi), socio economic disadvantage.”

NARROMINE SHIRE TODAY

The Narromine Shire is located 40 kilometres west of Dubbo, in the Orana region of New South Wales, Australia. Covering 5224 square kilometres, our vast Shire includes the major rural centre of Narromine, as well as Trangie and Tomingley.

We are a community of nearly 6,500 residents and are proud of our heritage, history and towns that we share with our residents, businesses and visitors. The median age in the region is 40 years. We choose to live in our Shire because of its location with access to a large regional centre, its picturesque setting and our close community connections.

The Wiradjuri people were the original inhabitants of this area and the traditional owners of this land. Today our Shire has an indigenous population of 1300 residents (21%).

Our agriculture sector has long been the mainstay and we are well known for our sheep, cattle and wool, cotton production and broadacre cereal crops. The mining sector employs 170 people with Alkane Resources offering significant employment in Tomingley.

Narromine Shire Council provides a range of services for our community. Our Shire's assets are valued at \$430 million and include roads, water and sewer infrastructure, footpaths, community amenities such as libraries, parks and playgrounds and sporting and recreation facilities.

Our Council will continue to focus on improving our community for residents, businesses and visitors to our Shire.

NARROMINE SHIRE THE FUTURE

The NSW Department of Planning predicts the Narromine population to grow to 6,621 people by 2041. Should the expected projects being developed within the NSW Renewable Energy Zone and Inland Rail be fully developed it is further expected that the population growth extends to 6,900 people by 2041. This is a percentage increase of between 2.7% and 7%.

Council's infrastructure requirement considers this potential growth and it is important to highlight this potential to all service agencies.

OUR PLANNING FRAMEWORK

Although Council has a responsibility to achieve or facilitate the implementation of these strategies, the Community, State and Federal Government, non-government agencies and the Community may also have a role in helping to achieve our Vision for 2035.

RESOURCING STRATEGY

It is important to recognise that the goals and objectives identified in this Plan cannot be achieved without sufficient resources (time, money, assets and people) to carry them out. The Resourcing Strategy comprises the following three key Plans.

- **Workforce Management Strategy:** The strategy addresses the human resourcing requirements of the Delivery Program and Operational Plan to ensure Council has the people best able to achieve its strategic direction and deliver appropriate services effectively and efficiently.
- **Long-Term Financial Plan:** This plan aims to balance the community aspirations and goals against financial realities. Balancing expectations and uncertainty of future revenue and expenditure forecasts is a key challenge which is addressed in the ten-year Plan.
- **Asset Management Plans:** These plans account for and plan for all of the existing assets under Council ownership, and any new asset solutions proposed in the Community Strategic Plan and Delivery Program.

DELIVERY PROGRAM

This key Council Program documents where the Community's Guiding Principles and Outcomes identified in the Community Strategic Plan are translated into actions. These are the principle actions/activities that Council will undertake to deliver on the goals identified in this Community Strategic Plan. This is dependent on the resources available in the Resourcing Strategy

The Delivery Program is a statement of commitment to the community from each newly elected Council. It is a leading document for all activities to be undertaken by Council and all plans, projects, activities and funding allocations must be directly linked to this Program.

Although Council has a responsibility to achieve or facilitate the implementation of these strategies, the Community, State and Federal Government, non-government agencies and the Community may also have a role in helping to achieve our Vision for 2035.

COMMUNITY ENGAGEMENT STRATEGY

This strategy outlines how Council will involve the community in Council decision-making and ensure the community can have their say. The strategy also outlines strategic actions for Council to investigate to further improve processes and instil a culture of best practice engagement.

OPERATIONAL PLAN

Supporting the Delivery Program is an annual Operational Plan produced by Council, which details the individual activities and projects to be undertaken during a single year. It includes Council's annual budget and Statement of Revenue Policy. These initiatives ensure delivery of Council's commitment to the Delivery Program.

ANNUAL REPORT

Reports back to the community on the work undertaken by Council in a given year. The Annual Report details the progress being made on implementation of the Delivery Program and towards achievement of Community Strategic Plan outcomes. The Report also details financial performance against the annual and longer-term budgets. This Annual Report is a critical part of the way Council is accountable to the community.

STRATEGIC PLANS

Other strategic planning may be undertaken by Council to assist in achieving the outcomes under each guiding principle identified in the Community Strategic Plan. Examples include the Local Strategic Planning Statement, Disability Inclusion Action Plan and Economic Development Strategy.

MONITORING AND REVIEW

A critical step in the framework is the continual monitoring and review of the Strategic Framework key strategies and documents. Changes in the world around us at a local, regional, state, national and global level affect the community in different ways. A critical component is the ability to adapt to the community's needs and be responsive to those external forces.

OUR VISION

OUR VISION

The Narromine Shire Community Strategic Plan 2035 represents a key milestone in planning for the future of our community and those who live, work and visit the Shire. Capturing the thoughts of the various groups, organisations, residents and industries was central to forming a united vision.

The Narromine Shire is a friendly place to live with a strong sense of community that values our services, facilities and our natural rural environment.

We are a community that values the diversity of people, ideas, perspectives and experiences.

We work together to strive towards a vibrant, safe and engaged community that provides opportunities for all its members.

Our Council is a leader for our community sharing the responsibility for growth, development and provision of services.

WHAT WE LOVE AND VALUE

To guide the Plan, it was important to understand what we love about the Narromine Shire, why people call it home and what is most valued about the Shire.

We love our strong sense of community, small town feel and friendliness. Other things our Shire values include relaxed lifestyle, location to a large regional centre (Dubbo), community spirit and the gardens.

It is important that we recognise the things we value most and ensure these are strengthened into the future. They form our social fabric and what makes the Narromine Shire unique to other towns and cities.

OUR GUIDING PRINCIPLES

To achieve the vision for 2035, the following guiding principles cannot be viewed in isolation; they depend on each other and need to work in balance to sustain the Shire.

Our Community Strategic Plan is the lead document in our Strategic Planning Framework. The following four guiding principles have been identified and developed through extensive community consultation and reflect our community's goals for the future. Note that these principles remain in place from the 2022-2032 document. The community consultation undertaken in 2025 confirms that these guiding principles remain consistent.

1. Vibrant Communities

GOAL: We want to create a safe, healthy and connected region that encourages participation and creates a strong sense of pride in our community and each others wellbeing.

2. Growing our Economy

GOAL: We have a diverse economy with thriving businesses that offer a range of employment opportunities supported by skill development options.

3. Protecting and enhancing our environment

GOAL: We value our natural and built environment, our resources for the enjoyment of the community and visitors to our Shire.

4. Proactive Leadership

GOAL: We are an open and accountable local government that involves our community in the decision-making process and effectively manages our public resources through sound financial management and well informed strategic planning for our Shire's future.

IMPLEMENTATION PLAN

Our Plan represents the overarching goals we will strive towards as a community. The following Implementation Plan will assist in guiding Council and stakeholders to meet our aspirations for the future. The following represents the key terminology for the Plan.

GOAL: This is a short description about the sort of community we want to be in the future.

OBJECTIVE: These are the detailed outcomes under each Guiding Principle. Being more specific they focus on what we want to achieve as a community.

STRATEGIES: These are more detailed and establish what we need to do in order to achieve the objectives we desire. It is important that we as a community are flexible in order to secure new opportunities, move with advances in technology and changes at a regional, state, national and global level. Specific actions by

Council will be included and prioritised according to resources in the four-year delivery program and annual operations plan.

TIMEFRAME: Indicates period this should occur.

 Short Term

 Long Term

 Ongoing

COUNCIL'S ROLE: Council is the custodian of the Community Strategic Plan, it will be a Leader, Partner or Custodian in the delivery of the strategies to achieve the objectives for our community's future.

VIBRANT COMMUNITIES

GOAL: We want to create a safe, healthy and connected region that encourages participation and creates a strong sense of pride in our community and each others wellbeing.

There are a range of services that aim to assist, link and support our members of the community. These services are vital and are supported by the provision of assets such as the medical centre, libraries, playgrounds, open spaces and sports and recreational facilities. With an ageing population these initiatives and services are vital for our residents by linking members of our community and providing a range of activities to keep active. We value our youth and their contribution and aim to provide access to good education and after school activities as well as ensuring they feel valued members of our community. Our stakeholders will continue to consider the needs of our population and our well being in the delivery of initiatives, services and facilities.

What we will measure	Measure
Incidents of crime in outdoor and public places	Improvement in the number of incidents as detailed in the BOSCAR report. Base year 2024/25.
Attendance and participation at Council run recreation facilities and programs	Consistent or improved attendance at the Narromine and Trangie Aquatic Centres, Trangie and Narromine libraries. Base year 2024/25.

A large orange DL300 wheel loader is the central focus, parked on a dirt surface in front of a high, eroded earthen bank. A worker wearing an orange high-visibility shirt and a hard hat stands with their back to the camera, looking towards the machine. The loader has 'DL300' and 'Narromine Shire Council' branding. The background shows a clear blue sky and the rugged terrain of a quarry or construction site.

GROWING OUR ECONOMY

GOAL: We have a diverse economy with thriving businesses that offer a range of employment opportunities supported by skill development options.

Our Shire will nurture and develop a sound strategic framework with short, medium and long term strategies to build a diverse and robust economy. With a strong agricultural backbone, we recognise the opportunity to strengthen and protect this sector while fostering growth in other areas such as tourism, aviation and community services. We will capitalise on our location and key assets to attract new industry, while aiming to strengthen our existing business base, to create new economic and employment opportunities.

PROTECTING AND ENHANCING OUR ENVIRONMENT

GOAL: We value our natural and built environment, our resources for the enjoyment of the community and visitors to our Shire.

We want to provide sustainable infrastructure including the maintenance of open spaces and supply of community facilities that meet the needs of our residents, businesses and visitors to our Shire. We recognise that each of our communities, Narromine, Trangie and Tomingley have their own spirit and character and are intrinsically linked to our Shire. We aim to create a village feel throughout, that charms residents and visitors to the region. Our roads are one of our greatest strengths linking our people and products to Australian and international destinations and markets. Access to Dubbo is recognised as a key link for our community.

Effective and sustainable water management and infrastructure is critical for our community. We aim to grow our cycleways and footpaths to allow greater access for all ages and levels of mobility. We value our rural environment, our natural beauty and aim to instill an awareness of the importance of the natural environment.

MEASURE

We will measure our progress towards achieving our objectives outlined at 3.1, 3.2, 3.3, 3.4 and 3.5 in the following ways:

What we will measure	Measure
Percentage of waste diverted from landfill	Consistent or improved level of waste diverted from landfill as measured by Narromine Shire Council. Base year 2024/25.
Number of Kilometres of road maintenance	Consistent or improved amount of road maintenance undertaken by Narromine Shire Council. Base year 2024/25.

A yellow Caterpillar bulldozer is shown from a low angle, pushing a pile of dirt on a dirt road. The road is surrounded by trees and foliage. The bulldozer has "CATERPILLAR" and "D7TL" visible on its front. The scene is brightly lit, suggesting a sunny day.

PROACTIVE LEADERSHIP

GOAL: We are an open and accountable local government that involves our community in the decision-making process and effectively manages our public resources through sound financial management and well informed strategic planning for our Shire's future.

We provide effective leadership and professional governance, for our community. We implement accountable direction setting and policy making that is in the best interest of our residents. We are accountable, open and transparent in our decision making involving and effectively communicating with our community. Our organisation is well managed, and work as a team that is well trained to deliver the services to our community. We plan appropriately for our future and build partnerships and alliances with other government agencies to advocate on issues affecting our Shire.
