### Section 514 - Categorisation of land for purposes of ordinary rates

Before making an ordinary rate, the council must have declared each parcel of rateable land in its area to be within one or other of the following categories:

- farmland
- residential
- mining
- business.

**Note:** Land falls within the "business" category if it cannot be categorised as farmland, residential or mining. The main land uses that will fall within the "business" category are commercial and industrial.

### Section 516 - Categorisation as residential

- (1) Land is to be categorised as **residential** if it is a parcel of rateable land valued as one assessment and:
  - (a) its dominant use is for residential accommodation (otherwise than as a hotel, motel, guesthouse, backpacker hostel or nursing home or any other form of residential accommodation (not being a boarding house or a lodging house) prescribed by the regulations), or
  - (b) in the case of vacant land, it is zoned or otherwise designated for use under an environmental planning instrument (with or without development consent) for residential purposes, or
  - (c) it is rural residential land.
  - Note: 1(A) For the purposes of this section, a **boarding house** or a **lodging house** means a building wholly or partly let as lodging in which each letting provides the tariff-paying occupant with a principal place of residence and in which:
    - (a) each tariff charged does not exceed the maximum tariff for boarding houses or lodging houses for the time being determined by the Minister by order published in the Gazette for the purposes of this subsection, and
    - (b) there are at least 3 tariff-paying occupants who have resided there for the last 3 consecutive months, or any period totalling 3 months during the last year,

and includes a vacant building that was so let immediately before becoming vacant, but does not include a residential flat building, licensed premises, a private hotel, a building containing serviced apartments or a backpacker hostel or other tourist establishment.

(2) The regulations may prescribe circumstances in which land is or is not to be categorised as residential.

- (1) Land is to be categorised as **mining** if it is a parcel of rateable land valued as one assessment and its dominant use is for a coal mine or metalliferous mine.
- (2) The regulations may prescribe circumstances in which land is or is not to be categorised as mining.

### Section 518 - Categorisation as business

Land is to be categorised as **business** if it cannot be categorised as farmland, residential or mining.

### Section 523 - When are the declarations of categories reviewed?

- (1)A council need not annually review a declaration that a parcel of land is within a particular category, but may review a declaration:
  - (a) as part of a general review of the categorisation of all or a number of parcels of land, or
  - (b) because it has reason to believe that a parcel of land should be differently categorised.
- (2) A council must review a declaration if required to do so in accordance with section 525 by a person who is rateable in respect of a parcel of land to which the declaration applies.

### Section 525 - Application for change of category

- (1) A rateable person (or the person's agent) may apply to the council at any time:
  - (a) for a review of a declaration that the person's rateable land is within a particular category for the purposes of section 514, or
  - (b) to have the person's rateable land declared to be within a particular category for the purposes of that section.
- (2) An application must be in the approved form, must include a description of the land concerned and must nominate the category the applicant considers the land should be within.
- (3) The council must declare the land to be within the category nominated in the application unless it has reasonable grounds for believing that the land is not within that category.
- (4) If the council has reasonable grounds for believing that the land is not within the nominated category, it may notify the applicant of any further information it requires in order to be satisfied that the land is within that category. After considering any such information, the council must declare the category for the land.
- (5) The council must notify the applicant of its decision. The council must include the reasons for its decision if it declares that the land is not within the category nominated in the application.
- (6) If the council has not notified the applicant of its decision within 40 days after the application is made to it, the council is taken, at the end of the 40-day period, to have declared the land to be within its existing category.
