

Local Environmental Group engagement

In keeping with the commitments under the 2017 – 2018 Delivery Plan, Council is seeking to develop working relationships with all known local environmental groups that operate within the Narromine Shire to further enhance the environment.

As part of the initial development of the relationship Council needs to identify those relevant groups and ascertain the activities of the groups. If you have an environmental group could you please contact Council via email, detailing the organisations contact details as well as a brief overview of the work undertaken by the group.

Emails should be addressed to Council's Manager Health Building and Environmental Services, Mr Guy Marchant gmarchant@narromine.nsw.gov.au and received by no later than 3 November 2017.

Jane Redden
General Manager
